Class Description

FUNDAMENTALS — Students will work on the fundamentals of ice skating to include stroking, spirals, spins, crossovers, edges, footwork and simple jumps. Instructors will set up stations and will go from station to station working on these different fundamentals of skating.

PROGRAM — Skaters will learn and practice a program. The program will allow skaters to learn how to connect different maneuvers in an interesting pattern. The program will be skated to music.

STROKING — (Junior & Senior Levels)
These classes will improve each student's edges, footwork and stroking techniques. The objective for these classes is to strengthen each skater's individual skating skills.

MUSIC — Music for the skating program will be selected from our library of music.

Recital

The Recital theme will be Music from children's favorite movies! **RECITAL WILL BE HELD AUGUST 20 AT 7:15-8:15 PM.**
Each skater will be able to perform their skating program and/or skate in opening and closing of the skating recital.

Freestyle Session Objective

This program will greatly enhance each skaters' overall skating quality and prepare each skater with the skills to skate a Freestyle program, while enjoying the excitement & fun of freeskating to music. This skating session has been developed for young recreational skaters (13 years and under) at Fairfax Ice Arena who would like to further their skating ability and skating enjoyment by learning a skating program.
